

# Insurance Management

Protection when you need it most!

Insuring your fleet through Fleetcare gives you the opportunity to secure the best deal, and the best advice.

Appointed by an Australian Financial Services Licensee (AFSL), we have the scale to negotiate favourable terms and we're constantly reviewing and upgrading our fleet insurance arrangements to secure the best value for our customers.

## Product range

Designed with flexibility in mind, we offer a wide range of car and truck insurance products at competitive rates for both Fleet and Novated Lease customers.

Different cover options include comprehensive cover and reduced premiums through risk sharing.

## So... how does this all work?

A Fleetcare motor insurance policy will give you protection against financial loss in the event of destruction or damage to your vehicle. Comprehensive motor insurance covers damage to your vehicle, and the vehicles and property of others.

- \* Working alongside AFSL staff, we relentlessly watch the markets for new, creative, and innovative policies.
- \* We're experts in every aspect of fleet ensuring you get the most relevant and sufficient insurance policy to suit each of your vehicles.
- \* Flatten your insurance costs through monthly billing and use your cash for more effective business use.
- \* All insurance policy requirements can be arranged over the phone with our knowledgeable team.

# Insurance Management peace of mind benefits

## Third-party insurance

In Australian states where third-party cover is not compulsory, you'll receive preferential rates for coverage wherever you need it.

## Novated Lease driver protection

For that extra peace of mind, we can offer additional insurance to Novated Lease customers to protect against a potential financial loss on selling the vehicle at the end of the lease.

## Replacement car hire

In the event that your vehicle is stolen or unsafe to drive as a result of theft or attempted theft, we'll organise a replacement car while we monitor your vehicles situation.

## 24/7 driver support

Full access to the insurer's crash and claims management services. Receive immediate advice and assistance with claims 24 hours a day, 7 days a week.

## Self-insurance

If you're a larger fleet operator, self-insurance may be an option. We can show you how to minimise your risk and put in a bespoke system to address your individual requirements.
