

Vehicle Purchasing

*Flexibility gives
the best results!*

You need expert advice and flexible leasing options, combined with optimised lease terms and the right mix of vehicles tailored to your business needs.

At Fleetcare, we know that all our customers are different, so our team of industry experts offer the necessary flexibility and experience to help you decide on the best possible configuration of purchasing options and vehicle specifications for your fleet.

Your vehicle, your choice

Our independence means that we can source any vehicle from any manufacturer or dealership Australia-wide.

Simply choose the vehicle you want, and we'll do the rest.

fleetcare

*So... how does this
all work?*

As Australia's most successful independent fleet management company, you can be comfortable in the knowledge that you have benefited from our independent buying power.

We are committed to ensuring that your vehicle acquisition, supply and fit-out comes to you at the best possible rate.

- * A reliable replacement program designed with utilisation in mind.
- * Expert advice on vehicle selection, accessories, fit-out, and livery.
- * National fleet buying power so you always get the best price.
- * Fleet finance audit to advise the best funding model to suit your needs.

Vehicle Purchasing peace of mind benefits

Vehicle supply schedule

Keep up-to-date with regular communication regarding the whereabouts of your vehicles. We'll follow up with dealers to reconfirm delivery dates on your behalf.

Vehicle fit-out

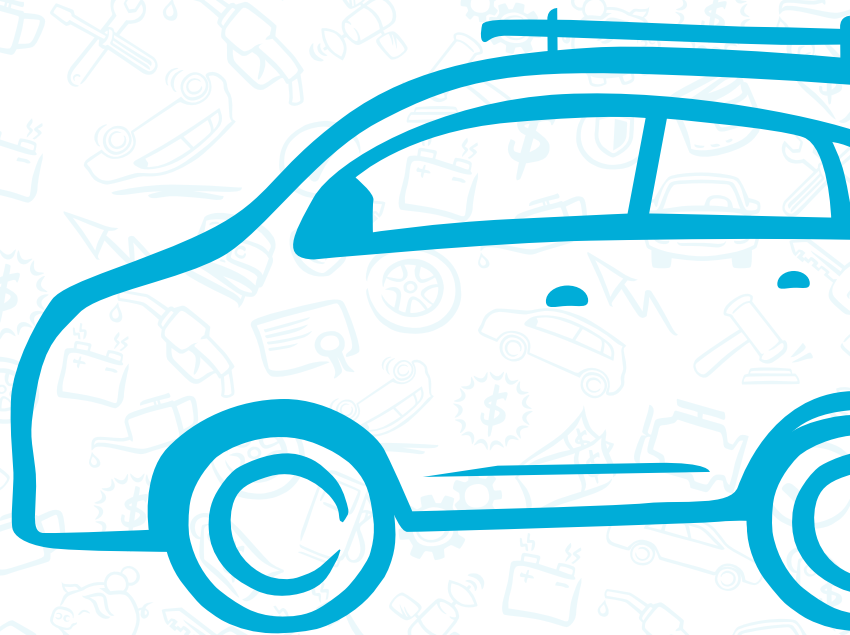

Supplying specialist vehicle fit-outs where required, including mine site vehicle specifications, specialised vehicle suspensions, and disability vehicle modifications including wheelchair tracking and hydraulic lifts.

Fleetmanager portal

Through our online Fleetmanager portal, you'll see at a glance when vehicles are due for replacement, and be able to make individual electronic requisitions.

Expert advice

Guiding you through your fleet options, we can help you make an informed decision on vehicle make and model, as well as offer comparisons on indicative future values.
